

TUFNEL

Limited Edition

Developed in collaboration
with ZIMMERMANN.

ATLAS HARMONIC

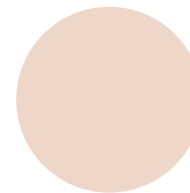

Developed exclusively for ZIMMERMANN's 2026 Summer Escape on the French Riviera, the ZIMMERMANN Limited Edition Tufnel brings together two Australian design houses. Atlas Harmonic's signature sound is paired with ZIMMERMANN's distinctive use of colour in a collection handcrafted in Australia and limited to ten pairs worldwide.

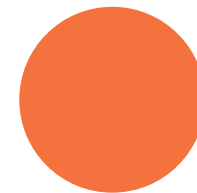

Finishes

Select from two Limited Edition colours

Soft Blush

Jaffa

Two Expressions

Two custom plinth heights are available.

Low Plinth

Designed for seated listening environments, bringing the loudspeaker closer to ear level.

850mm (H) × 440mm (W) × 396mm (D)

Tall Plinth

Designed for standing environments, encouraging broad sound coverage throughout the space.

1600mm (H) × 440mm (W) × 396mm (D)

The Riviera Plinth is available as an optional upgrade.

TUFNEL

Limited Edition

Technical Specifications

The Tufnel is Atlas Harmonic's flagship active loudspeaker, combining controlled directivity, integrated DSP amplification and handcrafted Australian construction. Every loudspeaker is individually assembled, measured and calibrated in Australia before leaving our workshop.

Specifications

Performance

Frequency Response
35 Hz – 20 kHz (±3 dB)

Maximum Output
125 dB Peak SPL

Nominal Coverage
120° (H) × 80° (V)

Crossover
750 Hz
4th Order Linkwitz Riley

Sensitivity
96 dB/2.83v/1m

Power

100–240 V AC, 50/60 Hz

Weight

45kg per speaker excluding plinth

Low Frequency

15 inch doped paper cone woofer
100 mm (4 inch) copper voice coil
Cast aluminium basket
Long excursion motor system
Vented magnetic assembly

High Frequency

1.4 inch titanium compression driver
High temperature voice coil
Constant directivity horn

Connectivity

Balanced XLR
RCA
Optional wireless streaming

What's Included

Two Tufnel loudspeakers
Two matching plinths (Low Configuration)
IEC power cord, country specific included
Individually packaged for safe international transport
Certificate of Authenticity
Signed Quality Inspection Certificate

Electronics

1100 watt amplifier
Thermal protection
Excursion limiters
Driver specific optimisation

Listening Modes

Reference
Balanced, natural voicing for everyday listening.

Studio
A more revealing presentation inspired by professional recording studios.

Party
80 Hz 4th Order Linkwitz Riley high pass filter for integration with external subwoofers, increasing headroom and vmaximum output.

Documentation

A comprehensive Technical Manual is supplied with every system, covering installation, placement, connectivity, DSP operation and maintenance.

Construction

Hybrid birch plywood and coated HDF enclosure
Composite polymer constant directivity horn
CNC machined aluminium front baffle
Internally braced cabinet
Automotive grade 2K satin finish

Dimensions

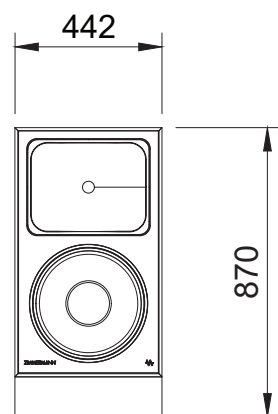

Speaker
Height: 750 mm
Width: 440 mm
Depth: 396 mm

Low Configuration
Plinth Height: 120 mm
Overall Height: 870 mm

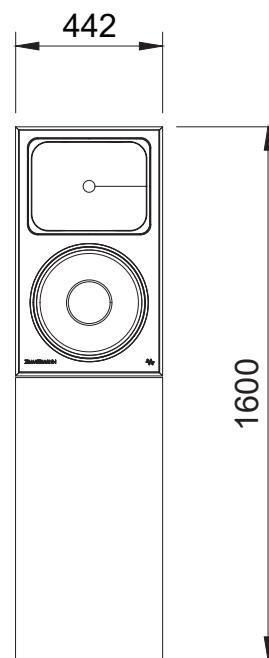

Tall Configuration
Plinth Height: 850 mm
Overall Height: 1600 mm

Warranty & Support

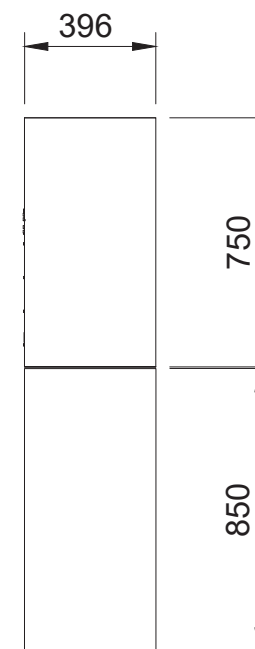

Five year craftsmanship warranty
Lifetime product support
Individually numbered
Certificate of Authenticity
